

# Archaeologist's Desk

## Materials:

- ◆ 2 Wooden Plastic Table Covers\*
- ◆ clear packing tape
- ◆ rectangular card table

## Tools:

- ◆ scissors

## Directions:

**Step 1:** Cover the top with the Wooden Plastic Table Cover. Make sure the wood grain is going lengthwise across the table. Secure to the table with tape.

**Step 2:** Drape the second Wooden Plastic Table Cover until it hits the floor, then fold in so the edge is even with the top of the table. Make sure the wood grain is going in a horizontal direction. Secure with loops of tape.
