

Kinkajou Cove Archway

Materials:

- ◆ 14 small cardboard boxes, all identical in size
- ◆ packing tape
- ◆ Stone Wall Plastic Backdrop*
- ◆ Carved Buddies Poster from the Giant Decorating Poster Pack*

Tools:

- ◆ scissors
- ◆ hot glue gun and glue sticks

Directions:

Step 1: Build and tape boxes shut.

Step 2: Wrap 10 boxes with Stone Wall Plastic Backdrop, leaving the bottom completely unwrapped and the top center unwrapped. This is so the boxes can be glued together.

Step 3: Build two identical columns five boxes high by putting glue in the unwrapped area of the center of the box. Press a box into the glue, making sure the box is offset from the first box. Continue to glue and stack.

Step 4: Tape four boxes together end to end to create a crossbeam.

Step 5: Wrap the taped-together crossbeam in Stone Wall Plastic Backdrop.

Step 6: Cut out the Carved Buddies Poster.

Step 7: Tape the poster on the crossbeam.

Step 8: Be sure the columns are spaced out so that they are ready for the crossbeam to be placed on top. Place crossbeam on top.
