

Audio Not working...try this!

-Open the Day that is not working

-Go to Slide 2

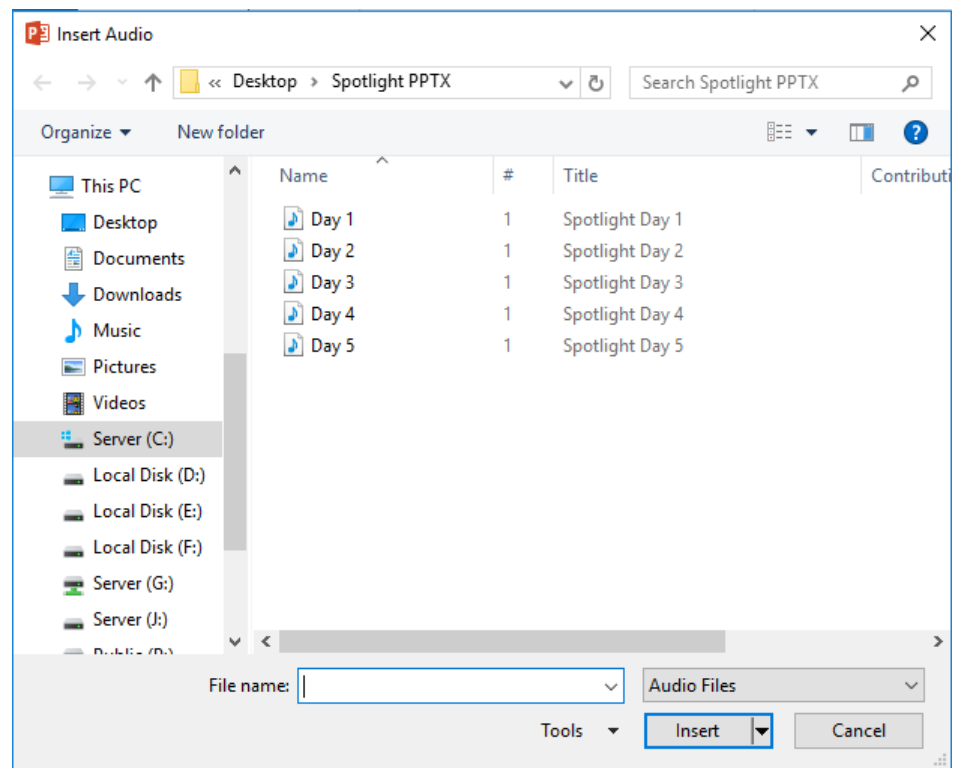

-Delete the audio file that appears in the bottom right of the slide by clicking on it and pressing delete on your keyboard

-Stay on Slide 2 and click **Insert** on top menu and find **Audio** on right side and choose **Audio on My PC**

-Find the Day's audio of the slideshow you are on and insert it into Power Point:

-Click on the audio file sound icon to highlight it then **Playback** on the top menu

-Change Start to **Automatically** check the boxes for **Play Across Slides** and **Hide During Show**
