All Aboard Timetable

Supplies

▸ 32"x40" piece of black foam core

▸ masking tape or colorful electrical tape

▸ Rocky Railway logo from the Giant Decorating Poster Pack*

▸ scissors

▸ yardstick

▸ pencil

▸ chalk marker

▸ green paint

▸ paintbrush

▸ dropcloth

▸ plastic gloves (optional; to protect hands while painting)

▸ 16"x48" cardboard sheet (or recycle a flat box from a bicycle, large TV, or assemble-it-yourself furniture)

▸ utility knife

▸ cutting mat

▸ hot glue gun and glue sticks

◖ Paint the cardboard green. Allow time for it to dry.

Measure and cut the painted cardboard into 4-inch x 48-inch strips to create the frame.

Use the yardstick and pencil to divide the black foam core into rows and columns as described below:

12" x 12"	16" x 12"	12" x 12"
12" x 10"	16" x 10"	12" x 10"
12" x 10"	16" x 10"	12" x 10"

Cover the pencil marks with masking tape or colorful electrical tape.

Use the chalk marker to write in timetable details. On ours we wrote "Train #," "Destination," and "Departure Time." You can customize yours as desired.

Hot glue the green cardboard pieces around the edges of the foam core to create a frame, trimming off the excess length as necessary.

Attach the Rocky Railway sign and the Rocky Railway logo from the Giant Decorating Poster Pack or print one from the Clip Art & Resources CD.

Tip: You'll have some green paint leftover from the main set decorating.
