

1

Set up the **easel** by folding each side back 90° and securing sides with fold-down locking wing tabs.

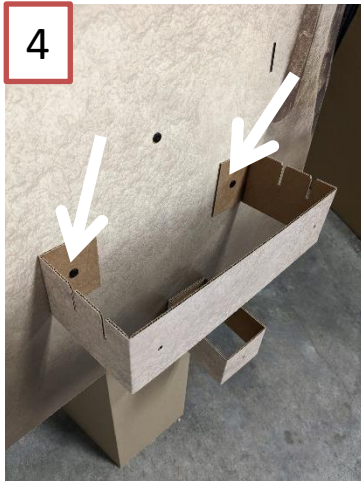

2

Attach the **backdrop** to the **easel** with the upper 2 bolts only. The lower holes will be used in future steps.

3

Attach the **lower support bracket** by folding it into a rectangle and securing with one bolt to the bottom of the **backdrop**.

4

Attach the **upper support bracket** to the **backdrop** by folding as shown and securing with a bolt on each of the end flaps.

5

Attach the **upper temple** piece by folding the side flaps back 90° and pushing the lock tabs into the uppermost slots in the **backdrop**.

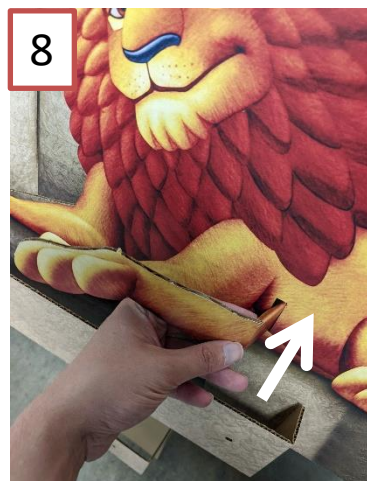

6

Attach the **lower temple** piece by setting into the rear slots of the **lower support bracket**. Then push the two lock tabs into the **backdrop**.

Place the **lion** piece into the front slots of the **lower support bracket**.

Connect the **lion's paw** by folding each side of the wing lock over and pressing into the slot.

Place 2-sided Velcro squares on all the corresponding marks on the **Babylon sign**. There are 17 squares total.

Using the artwork shadows as a guide, adhere each of the **Babylon letters** to the Velcro squares on the **Babylon sign**.

Attach the **Babylon sign** with 2 bolts to the **upper support bracket** and 1 bolt to the **lower support bracket**.

Finally, position the **lion's paw** in the slot on the **Babylon sign**. The finished display can be used standing up, or the bottom part of the easel torn off so the display can be suspended from the hanger holes in the back.
